**SOPHOS**

**SOPHOS:** UTM; next gen endpoint and network protection; MDM; secure WIFI; Encryption; RED; IPS; layer 7 control; Firewall; VPN; URL filter; Antispam; email encryption; DLP; Sandboxing; WAF; Server Hardening; Security synchronization (Heartbeat); server lockdown

**iboss**  
CYBERSECURITY

**IBOSS:** entire web stream protection; DUAL behaviour sandboxing; baselining for anomaly detection; threat isolator; post infection detection; MDM

**FOX IT**

**Fox-IT:** DataDiode; protection for SCADA; EAL 7+; EAL 4+; airgap; RED/BLACK network separation; one-way; hybrid security operation centre (SOC); TEMPEST; IP-crypto solution for moving vehicles or remote locations

**COSOSYS**

**Cososys:** DLP for Windows, Mac OS, Linux; MDM; content aware inspection; file shadowing/tracing; screen captures, USB devices, printers, applications; file whitelisting

**Veriato**

**Veriato:** Employee monitoring for investigation or productivity; screen capture recording; file & document tracking; email recording; web activity; keystroke logging; chat & IM monitoring

**Cryptshare**  
Making email safer

**Cryptshare:** encrypted transfer of large files; email encryption; file audit trail; no user accounts; integration into outlook and lotus notes

**DISUK**  
TAPE ENCRYPTION

**Paranoia:** AES256; add-hoc; back up encryption; on the fly tape encryption

**Centrify**

**Centrify:** SSO; account provisioning; privileged & shared account management; privileged user monitoring; MFA

**tripwire**

**Tripwire:** File integrity management; secure configuration management; remediation; system hardening; vulnerability management; SANS20

**yubico**

**Yubico:** 2FA; OTP; secure login for Microsoft solutions; HTTP reverse-proxy; SSO; FIDO U2F; OATH

**DATA LOCKER** **iStorage**  
**SAFEXS** **IRONKEY**

**Ironkey: Istorage: Datalocker:Safexs:** storage encryption; PIN password; ruggedized; FIPS 140-2 Level 3; tamper resistant; centralized management

**clearswift**

**Clearswift:** DLP; adaptive redaction; fingerprinting; data at rest/in motion/in use; 3rd party integration; Antispam; URL filtering

**Array NETWORKS**

**Array Networks:** Application delivery; load balancing; Ddos protection; SSL VPN; WAF; WAN optimization

**logtrust**

**Logtrust:** SIEM; log centralization and analysis; alerts; visualization; cloud or in-house based; scalable

**CLAVISTER**

**Clavister:** Next generation Firewall; Virtual Infrastructure Firewalling; VPN; Internet Border Firewalling; Internal Network Firewalling; web security, IPS, application protection; Server and WAN Load Balancing; DDoS Protection

**sealpath**

**Sealpath:** shared document remote control; document security everywhere; access control; audit and tracking

**arcon**

**Arcon:** Privileged user management/access control/ audit, password vault, SSO, session recording

**accelerite**

**Accelerite:** workstation/POS/-server/mobile/ATM/kiosk management; 0 single pane of glass; app wrapping; visualization; security and compliance; workload encryption; cloud provision

**Famoc**

**Famoc:** MDM; app control; remote wipe; provisioning; iphone, android, windows phone monitor; BYOD; locate; secure email

**HYTRUST**  
Cloud Under Control

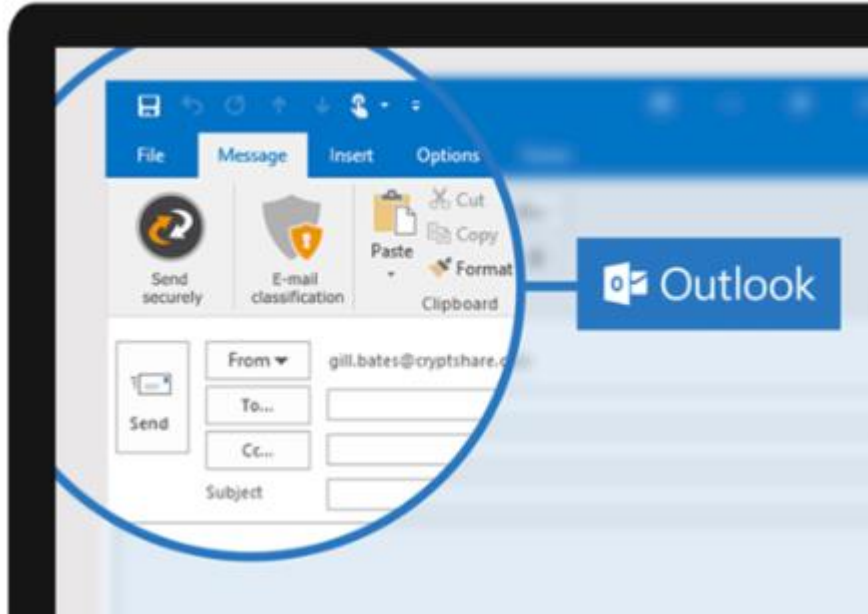

**Hytrust:** virtualization security; data encryption; cloud security

**Accellion**

**Accellion:** private cloud content collaboration; secure file sharing; seamless external collaboration; single pane of glass for content access on premise or cloud

**CYBER SECURITY ACADEMY**

**Cyber Security Academy:** hands-on cyber security, security beginner to professional training; Penetration testing, security awareness training; cyber-attack labs and simulations.

How it Works

Protected Endpoints

Content Aware Protection

- Content Inspection
- Whitelists and Blacklists
- Thresholds
- Reports, Analysis and Graphics

eDiscovery

- Content and file type scanning
- Encrypt data at rest
- Delete data at rest
- Export scan result

Device Control

- Removable Media Control
- Granular and Custom Rights
- File Tracing and Shadowing
- Granular Alerts

Mobile Device Management

- Strong Security
- Tracking and Locating
- Geofencing
- Application Management

Enforced Encryption

- USB Device Encryption
